

DHS Equity Analysis Toolkit

The DHS Equity Analysis Toolkit helps staff consider who is affected, what evidence is available, and which barriers and alternatives matter. It also addresses access, responsibility, and review. Use the current version available through DHS.

Outside source

A public source outside this program. Check the current source before relying on it. The original lives on the DHS intranet; open it there before relying on it.

Content

The checklist and impact questions in this program can help you prepare, but they do not replace the DHS Equity Analysis Toolkit. Confirm the current toolkit and any required process with the appropriate DHS contact.
