

Minnesota digital accessibility standard (MNIT)

Minnesota IT Services publishes the state's digital accessibility standard and accessible-document guidance. Verify the current version at the source before citing.

Outside source

A public source outside this program. Check the current source before relying on it. Source: Minnesota IT Services — <https://mn.gov/mnit/government/policies/accessibility/>

Content

Minnesota's current digital accessibility standard uses WCAG 2.1 Level AA. Check the current state standard before citing it.

Before releasing Word documents, PDFs, or slides, follow Minnesota's current guidance for accessible documents.
