

Tool card: State of Minnesota accessibility standard

The State of Minnesota digital accessibility standard, currently Section 508 plus WCAG 2.1 Level A and AA, and the accessible document guidance that accompanies it. Public. This program keeps WCAG 2.2 Level AA as its own stronger release target.

Outside source

A public source outside this program. Check the current source before relying on it. Source: Minnesota IT Services — <https://mn.gov/mnit/about-mnit/accessibility/>

Content

Owner and publisher: Minnesota IT Services and Minnesota Management and Budget. Status: official State standard.

Purpose: the accessibility floor for State digital content, systems, and documents.

Program posture: WCAG 2.2 Level AA is this program's release target, which is stronger than the current State floor.

Program use: accessible document and meeting guidance follow it. Check the current version with your accessibility lead.
